Santa Fe, NM: K-Selected Books

*The culmination of three years of clinical research, **WIND TURBINE SYNDROME** includes peer-review reports by American medical school faculty and American scientists, including acousticians, assessing the book's contribution to science and medicine.*

The book will be sold on www.WindTurbineSyndrome.com (PayPal credit card sales) for approx. \$10 & shipping.

Initially available in English, we hope to translate it into French, German, Spanish, Dutch, Italian, Portuguese, Swedish, Norwegian, Danish, and several others languages. (If you are a competent translator, who can handle translating clinical text, please contact Dr. Martin at rushton@westelcom.com.)

Would you be interested in buying a copy? Please email rushton@westelcom.com letting us know how many you would want to purchase.

(This is not an order form; it is merely an expression of interest. All we are interested in right now are numbers of books to have printed.)
